Job Description

We are looking for a skilled and motivated MERN Stack Developer to join our development team. The candidate will be responsible for building, maintaining, and optimizing scalable web applications using MongoDB, Express.js, React.js, and Node.js.

Requirements

- Develop responsive and user-friendly web applications using React.js
- Build and maintain RESTful APIs using Node.js and Express.js
- Design and manage databases using MongoDB
- Integrate frontend applications with backend APIs
- Implement authentication and authorization using JWT
- Debug, test, and optimize applications for performance and reliability
- Work with Git/GitHub for version control
- Collaborate with designers, developers, and other team members
- Write clean, reusable, and maintainable code
- Troubleshoot production issues and implement appropriate fixes

Qualification

B.E. (or equivalent)
